ACMT/ASAM Addiction Toxicology Case Conference

**Date & Time:** Friday, July 17, 2020, 1:00 pm Eastern Time (New York)

**Agenda:**

1:00 – 1:05 PM

**Introductions**

1:05 – 1:30 PM

**Case 1: Ambulatory Detox During COVID-19**

A 60-year-old administrator requests ambulatory detoxification for combined alcohol and sedative dependence during COVID19. He has several previous detoxification and treatment episodes that have required aggressive treatment regimens to get his withdrawal under control in the past.

1:30 – 1:55 PM

**Case 2: Kratom**

A Professional Health Program refers a 35-year-old physician for a residential evaluation due to signs of impairment while at work. He reports daily use of kratom and requests medication management of acute withdrawal. After stabilization, he agrees to take a medication to prevent relapse. What are the considerations for treatment regimen and drug testing/monitoring?

1:55 – 2:00 PM

**Q&A w/ Audience**

**Moderators:**

**Timothy J. Wiegand, MD FACMT** (ACMT/ASAM Expert)

Director of Toxicology and of the Toxicology Consult Service, University of Rochester Medical Center, Rochester, NY

**Gloria J. Baciewicz, MD** (ASAM Expert)

Medical Director, Strong Recovery; Professor of Clinical Psychiatry, Department of Psychiatry, University of Rochester Medical Center, Rochester, NY
