

**Emergency Medicine-Medical Toxicology Faculty Opening Assistant or Associate Professor
(Tenure or Non Tenure Track position)**

The University of Illinois at Chicago (UIC) and the University of Illinois Hospital & Health Science System (UI Health)—one of the nation’s most dynamic, diverse, and progressive enterprises of higher education and health affairs—is growing its emergency and toxicology care services, education, and research programs to address health disparities and improve the health of the people of Illinois. We are seeking an outstanding physician for a faculty position in the Division of Medical Toxicology within the Department of Emergency Medicine at the Assistant or Associate Professor level.

Academic Emergency Medicine & Medical Toxicology Physician

We are recruiting a full-time, academic Emergency Physician and Medical Toxicologist at the Assistant or Associate Professor level. The successful applicant will play a leadership role in a growing Division of Medical Toxicology. Our Division sits within a well-respected Department of Emergency Medicine with a strong track record of developing academic physicians. We have an EM residency program and are part of the Toxikon Consortium Medical Toxicology Fellowship program. Specific responsibilities include working in the emergency department, providing medical toxicology consultation services at UI Health and the Illinois Poison Center, collaborating with our addiction medicine colleagues to expand our innovative medication assisted treatment program, and participating in Division/Department educational and research initiatives. This position is ideal for someone seeking a career in academic medicine.

Must be board certified in Emergency Medicine or Board Eligible or Board Certified in Medical Toxicology. Position can be a tenure track or non-tenure track position.

We offer a competitive compensation and benefits package along with an option to participate in a generous incentive plan.

UI Health is dedicated to addressing health disparity challenges common to large, urban settings through innovations in emergency and toxicology care that improve inter-disciplinary health system function as well as community health. Our faculty is committed to excellence in quality of care, efficiency of delivery, continuous process improvement, and education. The University of Illinois is the largest university in the Chicago area. With several nationally-ranked health sciences schools, we offer an unprecedented opportunity for multi-disciplinary care, education, and research.

For fullest consideration, resumes should be received by September 11, 2019.

Please complete the online application on our UIC job board.
