

What is Medical Toxicology?

Medical Toxicology is a sub-specialty of medicine with a focus on the prevention, evaluation, treatment, and monitoring of injury and illness from exposure to drugs and chemicals, as well as biological and radiological agents.

What do Medical Toxicologists do?

Medical toxicologists work in clinical, academic, governmental and public health settings, and provide poison control center leadership.

Medical Toxicology Areas of Expertise

Important areas of focus in medical toxicology include acute drug poisoning; adverse drug events; substance use disorders, addiction and withdrawal; chemicals and radiologic materials; terrorism preparedness; venomous bites and stings; and environmental and workplace exposures.

About ACMT

Who We Are

Founded in 1993, the American College of Medical Toxicology (ACMT) is a professional, nonprofit association serving physicians of board certified in medical toxicology and others with recognized expertise in the specialty.

What We Do

Courses and Conferences

ACMT Annual Scientific Meeting & Symposia
ACMT Pre-Meeting Symposium at NACCT
Virtual Total Tox Course
Board Review Course
Seminars in Forensic Toxicology

Online Learning

education.acmt.net

Through the **ACMT Learning Center** members and others can access a large library of ACMT's on-demand webinars, courses, podcasts and more, as well as sign up for continuing education credits.

ACMT hosts monthly live webinars

including: National Case Conference, Grand Rounds, Addiction Toxicology Case Conference, and National Journal Club.

Committees and Sections

ACMT members can network and further study their common professional interests including: Addiction Toxicology; Diversity, Equity, and Inclusion; Education; Position Statements & Guidelines; Research; Government; Industry; Occupational & Environmental Health; Pediatrics; Women in Toxicology, and more.

Member Benefits Snapshot

Enjoy Discounted Rates

ACMT conferences & courses and access to **free member-only education content** in the ACMT Learning Center

Build Professional Relationships

ACMT member directory, committees and professional sections, discussions on the ACMT Forum

Stay Up to Date

Journal of Medical Toxicology (free member access), monthly webinars, member-only website content/resources, monthly member newsletter

Advance the Science

Opportunities to present and publish research, participate in ToxIC and in ACMT federally funded grants and projects (NIH, FDA, CDC, NIDA etc.)

Funding and Research Support

Apply for funding through the Medical Toxicology Foundation

acmt.net/membership

Membership Categories and Fees

- Full - \$440
- Affiliate - \$240
- Fellow in Training - \$90
- Associate - \$90
- Resident - \$40
- Medical Student - \$25
- International Developed Country - \$240
- International Developing Country - \$60
- International Affiliate - \$240

Questions? membership@acmt.net

ACMT Affiliate Organizations

toxicregistry.org

The Toxicology Investigators Consortium (ToxIC) is a multi-center toxico-surveillance and research network across the U.S.

Since 2010, ToxIC has been managing and adapting its registry to serve as a database for public health surveillance and emerging exposures within the field of toxicology. Data collection includes envenomations, plant and mushroom poisoning, fentanyl analog, and novel opioid and stimulant exposures.

acmt.net/journal

The Journal of Medical Toxicology (JMT) is our international, medline-indexed, peer-reviewed journal. JMT is dedicated

to advancing the science and practice of medical toxicology by publishing original articles, illustrative cases, review articles, and other special features. ACMT members enjoy free access to all JMT content.

acmt.net/mtf

The Medical Toxicology Foundation (MTF), is a 501(c)3 non-profit organization established by ACMT

in 2009. The MTF provides multiple opportunities for to further education and training in medical toxicology through travel awards to ACMT's Annual Scientific Meeting, research, education, and practice grants, a fellowship rotation in industry program, and collaborations with other medical associations.
