

"ACMT members have an open-mindedness and curiosity when they interact with others, they are genuine about knowledge-sharing and connection. At ACMT, I have friends I never would have expected, who share similar interests. The educational content is very rich.

ACMT sets new standards in the practice of medical toxicology and keeps you moving forward in your career. Once you're in, you want to stay in!"

- Stephen Wood,
MS, ACNP-BC, FEWM, Director of
Advanced Practice Providers, St.
Elizabeth's Medical Center
